

Data sheet SM M22 - Digital Output (M22-1HF10)

## **Technical data**

| Order no.   | M22-1HF10                      |
|---|--------------------------------|
| Туре  | SM M22 - Digital Output        |
| Module ID   | 0115 AFC8                      |
| General information   |                                |
| Note  |                                |
| Features  | 8x DO<br>AC 230 V<br>2 A relay |
| Current consumption/power loss                                |                                |
| Current consumption from backplane bus                        | 140 mA                         |
| Power loss  | 1.5 W                          |
| Technical data digital outputs                                |                                |
| Number of outputs   | 8                              |
| Cable length, shielded  | 1000 m                         |
| Cable length, unshielded                                      | 600 m                          |
| Rated load voltage  | DC 30 V/ AC 230 V              |
| Current consumption from load voltage L+ (without load)       | -                              |
| Total current per group, horizontal configuration, 40°C       | 4 A                            |
| Total current per group, horizontal configuration, 60°C       | 4 A                            |
| Total current per group, vertical configuration               | 4 A                            |
| Output current at signal "1", rated value                     | 2 A                            |
| Signal logic output   | Isolated                       |
| Output delay of "0" to "1"                                    | 10 ms                          |
| Output delay of "1" to "0"                                    | 5 ms                           |
| Minimum load current  | -                              |
| Lamp load   | -                              |
| Parallel switching of outputs for redundant control of a load | not possible                   |
| Parallel switching of outputs for increased power             | not possible                   |
| Actuation of digital input                                    | -                              |
| Switching frequency with resistive load                       | max. 0.33 Hz                   |
| Switching frequency with inductive load                       | max. 0.33 Hz                   |
| Switching frequency on lamp load                              | max. 0.33 Hz                   |
| Internal limitation of inductive shut-off voltage             | -                              |
| Short-circuit protection of output                            | -                              |
| Trigger level   | -                              |
| Number of operating cycle of relay outputs                    | -                              |
| Switching capacity of contacts                                | 5 A                            |
| Output data size  | 8 Bit                          |
| Status information, alarms, diagnostics                       |                                |
| Status display  | green LED per channel          |
| Interrupts  | no                             |
| Process alarm   | no                             |
| Diagnostic interrupt  | no                             |

| Diagnostic functions               | no                    |
|------------------------------------|-----------------------|
| Diagnostics information read-out   | none                  |
| Supply voltage display             | green LED             |
| Group error display                | red LED               |
| Channel error display              | none                  |
| Isolation                          |                       |
| Between channels                   | -                     |
| Between channels of groups to      | 2                     |
| Between channels and backplane bus | yes                   |
| Insulation tested with             | AC 2200 V             |
| Datasizes                          |                       |
| Input bytes                        | 0                     |
| Output bytes                       | 1                     |
| Parameter bytes                    | 0                     |
| Diagnostic bytes                   | 0                     |
| Housing                            |                       |
| Material                           | PPE / PPE GF10        |
| Mounting                           | Profile rail 35 mm    |
| Mechanical data                    |                       |
| Dimensions (WxHxD)                 | 26 mm x 88 mm x 71 mm |
| Net weight                         | 110 g                 |
| Weight including accessories       | 110 g                 |
| Gross weight                       | 123 g                 |
| Environmental conditions           |                       |
| Operating temperature              | 0 °C to 60 °C         |
| Storage temperature                | -25 °C to 70 °C       |
| Certifications                     |                       |
| UL certification                   | yes                   |
| oz odranodnom                      |                       |
